

# DISTRUST

INSURERS & PAYERS vs. PHARMA, TECH & BRICK

## THE TRADITIONAL APPROACH... DOES NOT HELP MUCH

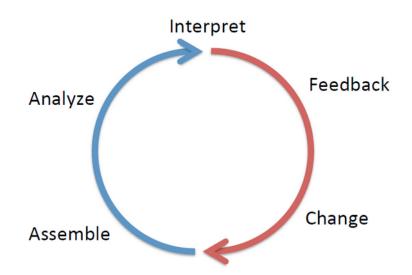

### Tons of Systematic reviews, and...

- a)Oesophageal biodegradable stent in benign conditions;
- b) Endobronchial valve in the treatment of persistent air leaks;
- Mitral clip percutaneous insertion in patients with severe mitral insufficiency refractory to usual treatment;
- d)Left atrial occlusion in patients with atrial fibrillation...

#### AIMING COMMON TRUST

A Learning Healthcare System is defined as a system in which, "science, informatics, incentives, and culture are aligned for continuous improvement and innovation, with best practices seamlessly embedded in the delivery process and new knowledge captured as an integral by-product of the delivery experience.

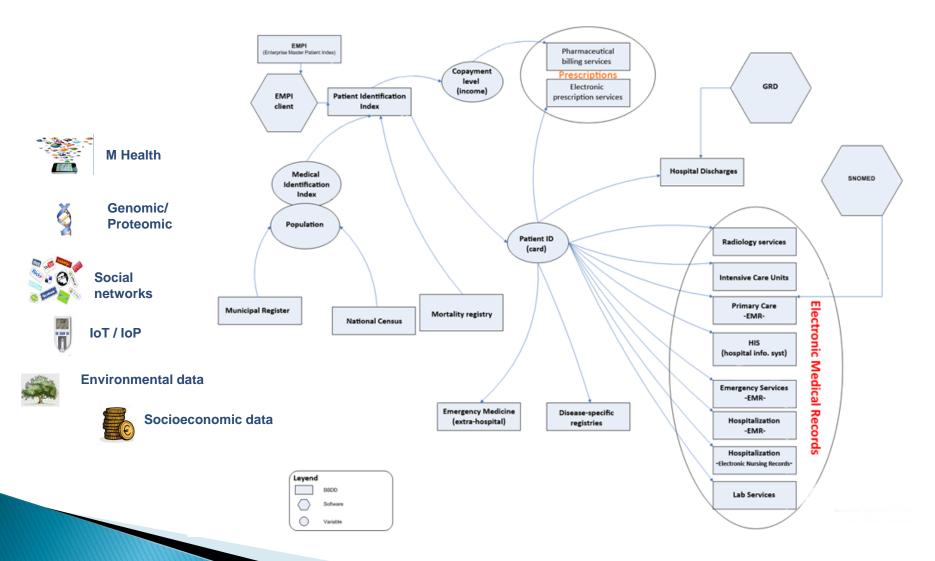

#### Value & Science-driven health care

- improve disease monitoring and tracking;
- better target medical services for improved health outcomes and cost savings;
- help inform both patients and clinicians to improve how they make decisions during clinical visits;
- avoid harm to patients and unnecessary costs associated with repeat testing and delivery of unsuccessful treatments; and
- accelerate and improve the use of research in routine medical care to answer medical questions more effectively and efficiently.

IOM, 2015

# REAL LIFE DATA LAKES ARE TRULY AN OPPORTUNITY

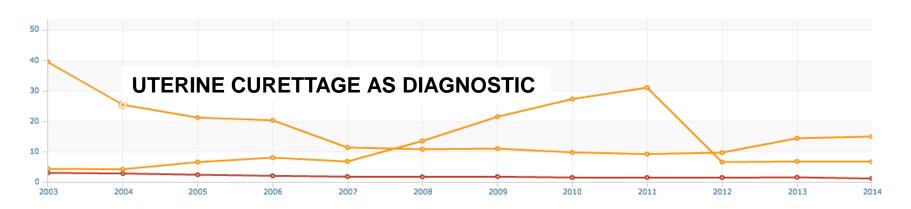

#### TYPICAL RW HEALTH DATA LAKE IN SPAIN

#### MONITORING & BENCHMARKING, AND EVALUATIVE RESEARCH

TWO STRAIGHTFORWARD UTILITIES

#### MONITORING & BENCHMARKING

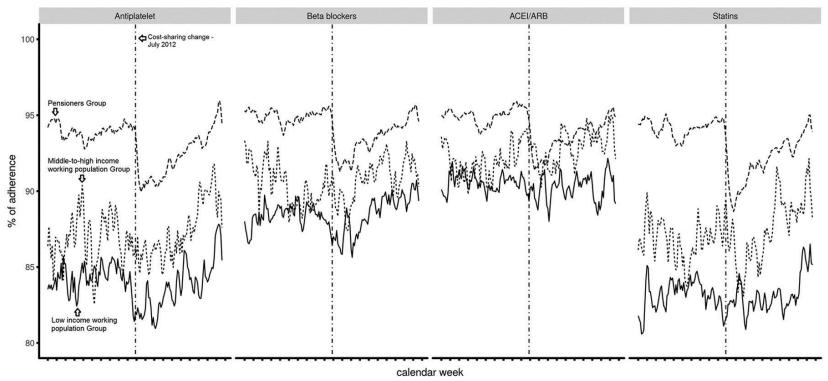

#### LOWER-VALUE SURGICAL PROCEDURES: PROVIDERS PROFILING

▼ OBSTETRICIA							
Cesáreas en condiciones de bajo riesgo obstétrico sobre partos de bajo ri	Aragón-Zara	12,75	36	10,79	2,02	<b>(</b>	48,52
Episiotomías sobre el total de partos vaginales en 2014	Aragón-Zara	43,28	566	17,41	2,36		73,03
▼ PEDIATRÍA

#### FLAWS & REMEDIES

BUT...

## Providing high-value out of real life data to enrich health systems ALSO requires:

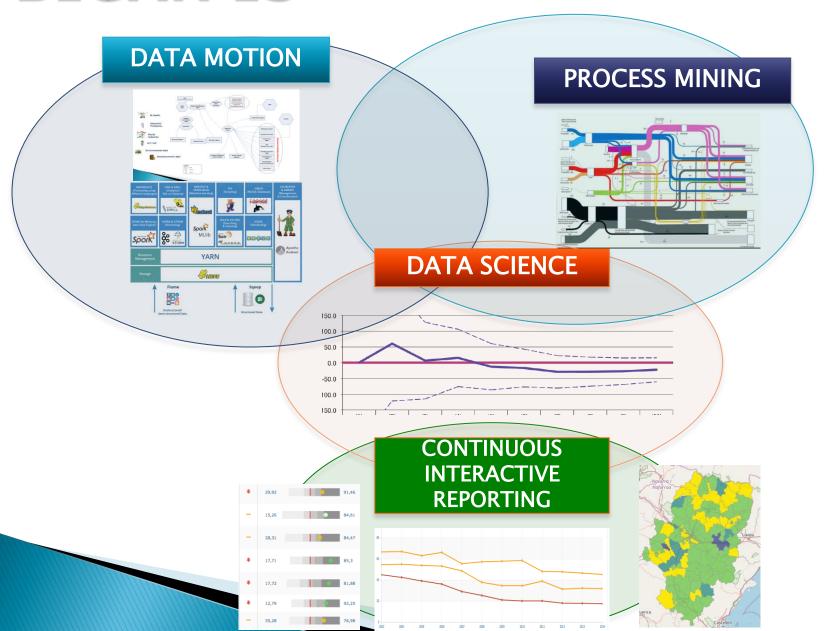

- High-speed processing and rapid-cycle reporting
- Actionable feedback to end users.
- Incentives alignment:
  - Joint learning culture
  - Psychological safety
  - Leaning-why, learning how activities
  - Senior leadership

### **BIGAN**

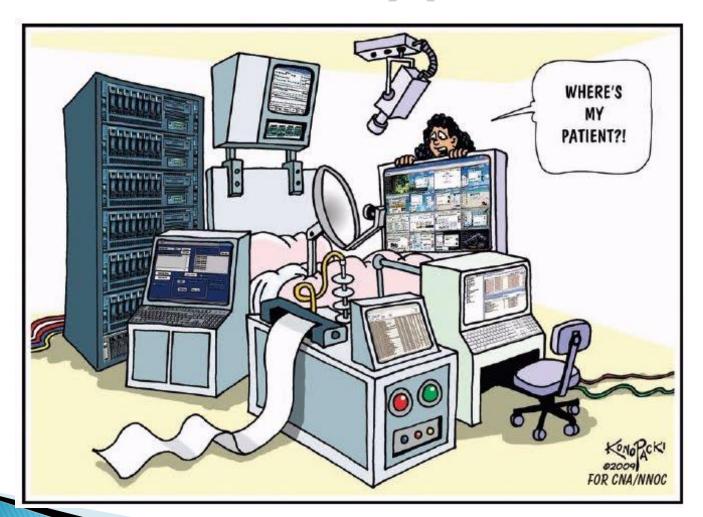

THE IACS BIG DATA COLLABORATIVE FOR THE DEVELOPMENT OF A LEARMING HEALTH SYSTEM

#### **BIGAN IS**
